

STERLING SERIES

Excloosives Sterling Unit is the ideal solution for small to medium sized events, catering up to approximately 150 people. The Sterling Unit is a state-of-the-art, high quality, and odorless toilet to compliment your event and make your guests feel right at home

ENTIRELY SELF CONTAINED

The Sterling unit is entirely self-contained and mobile, it can be wheeled into the most obscure terrains and no main water or sewer connection is required. If you have a flat surface - then our Sterling can call it home.

MODERN INTERIOR DESIGN

The unit features speckled granite interiors, sensed internal lighting, external LED lighting to illuminate entry as well as fragrant soaps and moisturises.

Our durable, seamless and slip resistant flooring systems will be enough to ensure safety and easy accessibility for everyone. While our modern ventilation system has been designed to route nasty odors up, out and away.

INBUILT STEREO SYSTEM

With an inbuilt stereo system you can provide your own favourite music to play in the unit, or why not let us take of it for you? We can tailor make a playlist to your event so that the party never stops for a toilet break.

REVERSE CYCLE AIR-CONDITIONING

Our own cooling and heating solution will comfort your guests. Keeping them cool on a hot summers day and warm in the chilly July frost without having any ugly cords or air conditioning ducts to ruin the decor and ambience of your event.
